

Dear Parents and Carers,

Last week was British Science Week, and the school was alive with curiosity! From fizzing experiments to hands-on teamwork, it was fantastic to see our pupil's investigating growth and change.

Highlights from Last Week

- 🧡 Young Carers Action Day: We celebrated the resilience of our young carers, focusing on wellbeing and the vital support they provide within our community.
- 🧠 Exam Readiness: Pupils began gentle practice with calming strategies and short challenges to build confidence when tasks get tricky.

🔒 Safeguarding: Staying Safe Online

In light of recent news across Wales regarding the evolving risks of social media and AI-generated content, we encourage parents to stay vigilant. The Welsh Government is currently prioritizing digital safety; please remind your children to speak to a trusted adult if they encounter anything online that feels off or uncomfortable.

Looking Ahead

- This Week's Focus: Recycling. We are exploring how small changes can help our environment. We have 3 recycling bins and encourage pupils to recycle daily.

- This week: Some pupils maybe visiting Lollypops and Ladybirds for a creative clay crafts session!

Warm regards,
Creslyn Singh
